Planning a digging project? A common cause of pipeline accidents is damage from excavation. If you plan on doing any digging, such as planting a tree or installing a fence, please call 811 before you dig. With one free call at least 48 hours in advance, 811 will notify nearby underground utility operators of your planned work. PG&E will then mark our underground gas and electric facilities, helping you to plan a safe project. Call 811 before you dig, and know what's below.

**ELECTRIC INDUSTRY DEFINITIONS**

- 1. Distribution:** The charge recovers the cost of distributing electricity over low-voltage lines to your home or business.
- 2. Nuclear Decommissioning:** The non-by passable charge that collects the funds required for site restoration when PG&E's nuclear power plants are removed from service.
- 3. Public Purpose Programs:** The non-by passable charge that funds state-mandated assistance programs for low-income customers and energy-efficiency programs.
- 4. Transmission:** The charge that recovers the cost of conveying electricity from power plants over high-voltage lines (including charges for Reliability Services which are the costs of generation required for transmission system reliability).
- 5. DWR Bond Charge:** The charge that recovers the cost of bonds issued to finance a portion of the historic cost of power purchased by California Department of Water Resources (DWR) to serve electric customers. DWR bond revenues are collected on behalf of DWR and do not belong to PG&E.
- 6. Generation Charge:** The charge that recovers the cost of the electric commodity incurred by PG&E and DWR to serve bundled customers.
- 7. Energy Cost Recovery Amount:** These charges are approved by the CPUC and authorized by California Public Utilities Code Section 848 et seq. The purpose of these charges is to pay the principal, interest, and other costs associated with Energy Recovery Bonds (Bonds) that were issued by a Special Purpose Entity (SPE). One of these charges is the Dedicated Rate Component (DRC), which is \$0.00579 per kWh. The right to receive DRC revenues has been transferred to the SPE and does not belong to PG&E. This right is called Recovery Property. PG&E collects the DRC on behalf of the SPE, which uses these funds to pay Bond principal, interest, and other Bond-related costs. The SPE transferred the net Bond proceeds to PG&E to purchase Recovery Property from PG&E. PG&E used the proceeds from the sale of Recovery Property to refinance its bankruptcy Regulatory Asset, which was established by the Commission to help finance PG&E's emergence from bankruptcy.
- 8. Competition Transition Charges (CTC):** The cost of purchased power agreements, signed prior to December 20, 1995, in excess of a CPUC approved proxy of the market price of electricity as well as a portion of electric industry restructuring implementation costs as authorized by the CPUC.
- 9. Power Charge Indifference Adjustment (PCIA):** The portion of your bill (either a charge or credit) intended to ensure that customers that purchase electricity from non-utility suppliers pay their share of the costs of generation acquired to serve them, unless otherwise exempt. The PCIA vintage describes the costs of generation a non-exempt customer needs to pay and is based on the generation resources acquired to serve the customer as of when the customer took generation service from the non-utility supplier.
- 10. Franchise Fee Surcharge:** This surcharge is for franchise fees for electricity purchased from non-utility suppliers as provided in Schedule E-FFS.  
**Note:** Customers that purchase both electricity and transportation service from PG&E (Bundled Service) pay charges 1 through 8; Customers that purchase electricity from non-utility suppliers pay charges 1 through 5, plus 7 through 10.

**RULES AND RATES**

The full text of PG&E's rules and rates is available for inspection upon request. Optional rates are available to many customers and may lower your PG&E bills. Call PG&E for details.

**DISPUTED BILLS**

Should you question this bill, please request an explanation from PG&E. If you thereafter believe you have been billed incorrectly, send the bill and a statement supporting your belief that the bill is not correct to:

**California Public Utilities Commission (CPUC)  
 Consumer Affairs Branch  
 505 Van Ness Avenue  
 San Francisco, CA 94102**

To avoid having service turned off if the bill has not been paid, enclose a deposit for the amount of the bill made payable to the CPUC. If you are unable to pay the amount in dispute, you must inform the CPUC of your inability to pay. Your service cannot be discontinued for nonpayment of the disputed bill until the CPUC completes its review. The CPUC will review the basis of the billed amount, communicate the results of its review to the parties and make disbursements of any deposit.

The CPUC will not, however, accept deposits when the dispute appears to be over matters that do not directly relate to the accuracy of the bill. Such matters include the quality of a utility's service, general level of rates, pending rate applications and sources of fuel or power.
